### In the Claims

Please cancel claims 2-99 without prejudice or disclaimer.

Please amend claim 1 as follows:

- 
1. (Once Amended) An apparatus for storing and forwarding messages, the apparatus comprising:
    - a first network interface for interfacing with a network;
    - a second network interface for interfacing with an Internet network;
    - means for receiving an incoming message and delivery information from said first network interface, said incoming message having a message content format of a first type;
    - a converter for converting said incoming message having a message content format of a first type to a message having a message content format of a second type in response to said incoming message and said delivery information, said converter using
